# KUNSTMUSEUM LIECHTENSTEIN

Press Release

Vaduz, 29 November 2011

## Kunstmuseum Calendar 2012

#### With works from the National Collection

The Liechtenstein Kunstagenda has been published for almost a quarter of a century. In this calendar, the Museum presents works from its collection, including works that are regularly on show in the collections, as well as more rarely displayed works and new acquisitions.

The Agenda planned for 2012 is artistically focussed on collection/accumulation. This subject addresses the basic goal set in the first issue, namely to provide insights into the inventories of the museum, organized by groups of works and individual works by different artists. In that regard the Kunstagenda 2012 asks to what extent collecting in complete oeuvres or certain groups of works still provides a meaningful impulse. Experience shows that not every accumulation of works automatically constitutes a collection, and the selection presented here provides multiple accesses on this subject. It always seems to come as a surprise that by simply shifting the point of view ever so slightly, a significant change in the content can result. This can occur in a humorous but also analytical way.

#### Kunstagenda 2011

The Kunstagenda 2011 is published by the Benteli Verlag and available in specialized shops or at the Kunstmuseum CHF 27.80. (ISBN 978-3-7165-1689-8).
